THE JOURNEY OF YOUR SAMPLE

Submitting a Sample to OmniQU Laboratories

OMNIQU LABORATORIES
TESTING BEYOND THE VISIBLE

1 PREPARE YOUR SAMPLE SUBMISSION FORM (SSF)

Every sample must be accompanied by a completed Sample Submission Form (SSF) This ensures full traceability and accuracy from receipt to reporting.

WHAT TO INCLUDE:

- ✓ Product details
- ✓ Specific testing requirements
- ✓ Full contact information

PRO TIP:
Accurate documentation prevents processing delays.

2 SAMPLE LABELING & PACKAGING

LABELING:
Clearly mark each container with the Client Name, Product Name, and Collection Date.

CONTAINERS:
Use appropriate, industry-standard containers (e.g., sterile vials, swabs, or bottles).

ENVIRONMENT:
Ensure samples are sealed and maintained at recommended temperatures to prevent degradation.

3 DELIVERY & COLLECTION OPTIONS

DAILY COLLECTION:
Available in select regions—contact us to see if you are on our route.

LAB DROP-OFF:
Visit our facility during standard business hours for direct submission.

4 THE ANALYSIS PROCESS

LOGGING & BARCODING:
Samples are immediately scanned into our system for real-time tracking.

SPECIALIST ANALYSIS:
Samples are routed to the relevant department for testing by qualified scientists.

VERIFICATION:
Results undergo a strict QA review before the final report is issued.

5 TIMELINES & REPORTING

STANDARD TURNAROUND:
Most results are delivered within **2–5** working days.

NEED GUIDANCE?
If you are unsure about sample volumes or container types, our technical team is available to assist you.
